About the activity:

Department of Computer Engineering of Aadishwar College of Technology institute had conducted one day seminar on “Android Programming” on the March 28, 2017. This was a platform for the young IT aspirants to showcase their talents in Android technology. Prof. Ruchita Joshi gave a welcome address with an overview of the workshop. She gave a warm welcome to the speaker of a day Mr. Hitesh Kachhela, Trainer - Tops Technology.

The speaker Mr. Hitesh Kachhela gave more ideas about developing applications, and also stated to show development according to an individual’s interest. He also motivated the participants by stating that there are plenty of opportunities available in market.

Following topics were covered in seminar:

1. Android History
2. Android SDK
3. Android Activity Life-cycle
4. Layouts
5. Intents
6. Theme & Style
7. Navigation Drawer
8. Sample Application

The afternoon session became more interesting when the expert had a practice session for creating a sample application using all the covered tools implementation. There are also very good opportunities of obtaining jobs in this field. Keeping this view, this seminar was arranged.

A round of intelligentsia with fruitful interaction was carried out by the Expert with the students. There was a session of 15 minutes for open ended discussion with the students. Finally the session was completed by vote of Thanks given by Prof. Zishan Shaikh & the session was concluded by Prof. Nehal Rajput with a token of appreciation.

About expert: These days, hot topics that almost everyone is interested in mobile technology, mobile devices and of course, mobile operating systems. Everyone wants to be able to do everything fast, and on the go. The developers have done a great job feeding us a never-ending stream of new apps, new devices and new hacks. Mr. Hitesh Kachhela was an expert in android development since past 5 years. He shared his tremendous knowledge with students.

Outcome (Benefits to students, faculties, school and university):

Students learnt about basic steps to develop and deploy any android app.
